I hope that you help me...

The European Court of Human Rights can destroy one life

Note of protest against Internationally wrongful act letter from the of 16.07.2013.

Dear Mr. President, of the Amnesty International,

Germany refused essential medical attention for years (1998 - 2003) so that I developed many illness. German judges are violating the law, made me intentionally homeless and dependent on others, which caused me deep psychological trauma. Acquainted with all the documents in my case, is possible to make appropriate findings that the German courts, prosecutors at various levels, law enforcement agencies, government officials, etc. took an active part in the destruction of my health and life.

German authorities in the face of the second court (Landgericht Berlin **Nr.: (528 Qs 49 / 03)**) at 17.12.2003 acknowledged that the decision of the first court (Amtsgericht Tiergarten **Nr.: 251b / 251a Ds) 52 Js 7 / 00 (349 / 00)** in 19.07.2000 is illegal. January 3, 2005 the first Court (Amtsgericht Tiergarten **Nr.: (251b / 251a Ds) 52 Js 7 / 00 (349 / 00)**) decided that its own decision of 19.07.2000 was not really fair and thereby reaffirmed the erroneous judgments adopted by 30 other courts within 7 years. It is the consequence of these judgments that made me an officially recognized invalid. Despite the fact that the court has decided to pay the injured all expenses and compensation for the entire period of litigation in his case and published the relevant information in a federal publication **Nr.: 50 027 - (Bundesanzeige Nr.: D13 / 52 Js7 / 00 VRs)** which recognized the wrongfulness of his actions, the government of Germany's own decision not complied with the court and perform in the future are not going to . Instead, the German authorities using the whole range of administrative resources, made the last 15 years of his life a really hell victim.

Since 2003 I try to bring my case to the European Court of Human Rights (**Nr.: 746 / 04 - Nr.: 6859 / 08 - Nr.: 2968 / 09 - Nr.: 11399 / 10**) but they refuse to accept my complaint. Instead of removing these disgraceful practices, the German state is engaged in persecuting me for 15 years, hence, I fell victim to these repressions. This notwithstanding, I managed to get my indemnification claims considered at all German courts ((**Nr.: XII ZB 484 / 11**) - (**Nr.: 6 W 44 / 11**) - (**Nr.: 86 O 633 / 09**)). The last judgment (**Nr.: XII ZB 484 / 11**) of the Supreme Court of Germany (BGH) was adopted on 12.09.2012. Following this judgment, I lodged a complaint to the ECHR. 2013 they (ECHR (**Nr.: 32856 / 13**)) accepted my complaint, but they gave me too short time to explain what happend. I want to mention that I am not a lawyer and it is very difficult for me to fulfill all of the formal conditions of the legal process. I have no money and I am desperately ill so that i can not pay a lawyer who could

institute the legal proceedings in legal permissible way. I need help to get justice. But I don't get the help in Germany and I don't get help from Azerbaijan.

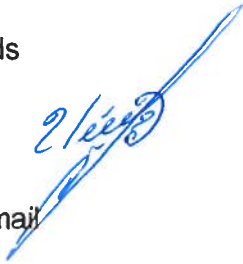

Please, consider that this process is not easy for me because, I suffer from **16** different diseases like AIDS and I am **80 %** disabled which were caused by an inhuman treatment by Germany. My case contains more than 7.000 pages of legally material. It's takes time to view and evaluate this material and summarize it for the European Court of Human Rights. I would like to have an open Court hearing now to explain what happened because, a lot of important informations are not in the documents, but they are in my mind. I can't live anymore like in the past years as a victim who suffered from injustice.

In connection with my continued stay in Germany for obvious reasons is not possible and the fact that I was the fault of the German authorities disability (**80%**), as well as not able to support themselves for a full existence in other countries. If i don't get the chance to defend against the injustice and if the European Court refuse to help me, I have no other choice than to go on a hungerstrike in **26.09.2013** front of the Court for Human Rights and if somebody will try hinder my protest, I have not another choice, than take one's own life.

In the videos (<http://www.youtube.com/watch?v=6gcecmrjuq0>), there is the life story of my and the videos (<http://www.youtube.com/watch?v=-pj8idIYC2s>), there is the life story of Egyptian guy.

Best regards

Rustem Ismail
