I hope that you help me... AIDS - Lunge tubercles ...

During the last 10 years thousand immigrants in Germany committed **suicide**. Because they thought, that these crimes would not be uncovered. When thousands immigrans committed suicide, may be, hundred thousands of them got invalid persons. If the laws cause the death of thousands of immigrants, is this not a genocide? If the laws are existent, but the judges break these laws misusing the unknowledgeness of the immigranst, is that not a massive killing of the persons? The persons, who made me an invalid person, are enjoying the life. And human rights organizations are not able or may be they dont want to reveal these crimes. The uncovering of these crimes will be a light for revealing the ground, why so many immigrants commit a suicide. I am very asking you, to let translate and read **personally** my letter to German Bundestag dated from 29. May 2008, which consists of **15** pages. You can see there the description of the crimes in a short form, where I also prove them.

Thank you in advance.
